**QUESTION 1**

The deployment descriptor uses the \_\_\_\_\_ element to pass control to an error page when an exception is thrown.

- A.
- B.
- C.
- D.

Correct Answer: B

---

**QUESTION 2**

John works as a Programmer for Technostar Inc. He writes the following code using Java.

1.  
`class WrapperClass{`
2.  
`public static void main(String[] argv){`
3.  
`String str2 = Double.toString(12);`
4.  
`String str1 = Double.toHexString(12);`
5.  
`System.out.println(str1+str2);`
6.  
`}`
7.  
`}`

What will happen when John attempts to compile and execute the code?

- A. It will not compile because the Double class does not contain the toHexString() method.
- B. It will compile and execute successfully and will display 8p312 as the output.

C. It will compile and execute successfully and will display 0x1.8p312.0 as the output.

D. It will not compile because the Double class does not contain the toString() method.

Correct Answer: C

---

### QUESTION 3

Which of the following code snippets will read the eighth byte of the file wRead.txt into the variable str?

A. RandomAccessFile raf=new RandomAccessFile("wRead.txt");raf.seek(8);int str=raf.readByte();

B. FileInputStream fis=new FileInputStream("wRead.txt");int str=fis.read(8);

C. FileInputStream fis=new FileInputStream("wRead.txt");fis.skip(8);int str=fis.read();

D. FileInputStream fis=new FileInputStream("wRead.txt");fis.skip(7);int str=fis.read();

Correct Answer: D

---

### QUESTION 4

Which of the following symbols is used to designate a named input parameter?

A. ?

B. ;

C. :

D. !

Correct Answer: C

---

### QUESTION 5

Which of the following will be returned by the expression "string" instanceof String?

A. 0

B. 1.0

C. null

D. false

E. 0.0

F. true

Correct Answer: F

---

**QUESTION 6**

Identify whether the given statement is true or false. "A try statement can be placed inside the code block that follows another try statement."

- A. True
- B. False

Correct Answer: A

---

**QUESTION 7**

You work as a Software Developer for BlueTech Inc. You create code using EJB 3.0. You want to ensure that each new record is checked for validation before it is inserted into the database. Which of the following callback methods will you use to write the logic for validation?

- A. PostUpdate
- B. PreUpdate
- C. PostLoad
- D. PrePersist

Correct Answer: D

---

**QUESTION 8**

Which of the following classes is an engine class that provides an opaque representation of cryptographic parameters?

- A. DSAPublicKeySpec
- B. AlgorithmParameterGenerator
- C. DSAParameterSpec
- D. AlgorithmParameters

Correct Answer: D

---

**QUESTION 9**

Which of the following is the correct syntax for the JVM garbage collection?

- A. System.out.gc();
- B. System.gc();

C. System.free();

D. System.setGarbageCollection();

Correct Answer: B

---

#### QUESTION 10

Identify whether the given statement is true or false. "JAR files can be used while compiling but not while executing other files."

A. False

B. True

Correct Answer: A

---

#### QUESTION 11

Which of the following is a valid constructor for the DataInputStream class?

A. DataInputStream(File file)

B. DataInputStream(FileInputStream fin)

C. DataInputStream(String str)

D. DataInputStream(FileInputStream fin, int size)

Correct Answer: B

---

#### QUESTION 12

Mark works as a Programmer for InfoTech Inc. He wants to develop a JMS API application that is used as a messaging service application. He writes the following createSession() method.

```
session = connection.createSession(false, 2);
```

Which of the following statements are true about the syntax? Each correct answer represents a complete solution. Choose all that apply.

A. The client acknowledges a consumed message by calling the message's acknowledge method.

B. The acknowledge method can reduce session overhead by minimizing the work the session does to prevent duplicates.

C. This method instructs the session to lazily acknowledge the delivery of messages.

D. The session automatically acknowledges a client's receipt of a message.

E. If a message consumer consumes eight messages and then acknowledges the fourth message delivered, all eight messages are acknowledged.

Correct Answer: AE

---

### QUESTION 13

Which of the following pieces of codes will be placed at the line XXX to successfully compile the given class? public interface Publication { String GetDetails(); } public class Book implements Publication { //line XXX }

- A. public String GetDetails(){}
- B. Object GetDetails(){}
- C. long GetDetails(){}
- D. private String GetDetails(){}

Correct Answer: A

---

### QUESTION 14

Which of the following data type values is returned by the System.in.read() console input function?

- A. String
- B. Integer
- C. Float
- D. Character

Correct Answer: B

---

### QUESTION 15

Which of the following statements are true?

Each correct answer represents a complete solution. Choose all that apply.

- A. An inner class cannot be defined as private.
- B. An inner class cannot be defined as protected.
- C. An inner class can be defined as private.
- D. An inner class can extend another class.

Correct Answer: CD
