

Exam : **HP0-922**

Title : Implementing&Supporting
HP Storage Essentials v5.1

Version : DEMO

www.Pass4itSure.com

1.HP Systems Insight Manager and HP Storage Essentials provide server and storage management through a central management platform. Which functions are included? (Select three.)

- A.integrated security
- B.storage array configuration
- C.array discovery and identification
- D.access to storage on unmanaged hosts
- E.assignment of a new management server
- F.speed modification on Fibre Channel connections

Correct:A B C

2.Which activities can be monitored with Storage Essentials? (Select two.)

- A.storage growth planning
- B.disaster recovery planning
- C.storage network traffic sniffing
- D.domain user rights identification
- E.underutilized storage identification

Correct:A E

3.What is a recommended prerequisite for a hardware or software product to become HP Storage Essentials compliant?

- A.Fibre Channel support
- B.Windows 2000 or 2003 server platform
- C.HP Systems Insight Manager compatibility
- D.Storage Network Industry Association conformance

Correct:D

4.Which statement about Storage Essentials Solution Service is correct?

- A.The product warranty is extended with Level 3.
- B.At least one level must be included in each quote.
- C.Storage Essentials is customer installable and all levels are optional.
- D.Software installation, configuration and testing are only included in Level 1.

Correct:B

5.Which HP Storage Essentials features include direct attached storage? (Select two.)

- A.schedule of provisioning tasks
- B.display of ports in Performance Monitor
- C.display of connections in System Manager
- D.schedule of port performance data collection
- E.display of reachable ports in Path Provisioning

Correct:A C

6.What extends HP Systems Insight Manager with additional SAN management and monitoring functionality?

- A.entering a new license key
- B.installation of SMI-S providers
- C.the CIM extension on managed hosts
- D.a CIMOM client enabled on the storage system

Correct:B

7.What are the two components of the connector?

- A.SE Database connector which connects both HP SIM and HP Storage Essentials to the database
- B.ODBC connector which connects HP SIM to HP Storage Essentials; HP SIM connector which connects HP Storage Essentials to HP SIM
- C.MySQL connector which connects HP SIM to HP Storage Essentials; HP SIM connector which connects HP Storage Essentials to HP SIM
- D.Storage Essentials connector which connects HP SIM to HP Storage Essentials; HP SIM connector which connects HP Storage Essentials to HP SIM

Correct:D

8.Which infrastructure service is required on the central management server host to install Storage Essentials?

- A.CIM
- B.SNMP
- C.CIMOM
- D.SMI-S provider

Correct:B

9.Which security feature protects the intercommunication of HP Systems Insight Manager (SIM), its clients, and its users?

- A.Secure Shell based scripting is limited to UNIX platforms.
- B.HP-signed Secure Socket Layer certificates ensure authenticity.
- C.Secure Task Execution limits access from specific HP SIM servers.
- D.Secure Shell known_hosts files contain a list of discovered servers.

Correct:C

10.What is a characteristic of HP Systems Insight Manager with regard to open system management platform design?

- A.It may be extended by using third party plug-ins.
- B.It is licensed for exclusive use with HP components.
- C.It supports only HP platforms, whereas any platform integrates with HP OpenView.
- D.It primarily uses SNMP to contact devices; other connection methods are optional and must be purchased.

Correct:A

11.What are steps of the HP Storage Essentials discovery process? (Select three.)

- A.Detail Scan: Scan for SAN topology, backup topology, and all available volumes.
- B.Unlock: At the end of the discovery, data flow in the storage network is re-enabled.
- C.Setup: Before the initial scan starts, an IP address or an IP address range must be specified.
- D.Topology Scan: On the second scan after initial scan, a tree shows all dependencies between devices.
- E.Hardware Scan: After the detail scan completes, a hardware scan identifies all available resources.
- F.License Scan: After the hardware scan completes, a scan identifies all licensed and unlicensed server applications.

Correct:A C D

12.What are optional HP Storage Essentials plug-ins? (Select three.)

- A.Policy Viewer
- B.Oracle Viewer
- C.Sybase Viewer

- D.Chargeback Manager
- E.Performance Manager
- F.Global Database Viewer

Correct: B C D

13.Which databases can be used by HP Systems Insight Manager? (Select two.)

- A.DB2
- B.Oracle
- C.Sybase
- D.PostgreSQL
- E.Microsoft SQL

Correct: B E

14.Which component ensures HP Systems Insight Manager/Storage Essentials synchronization?

- A.CIMOM
- B.connector
- C.SMI-S interface
- D.dedicated transaction manager

Correct: B

15.The security architecture of HP Systems Insight Manager (SIM) is designed to protect data and software functions from unauthorized access. What is a key feature of SIM security?

- A.built-in accounts
- B.preconfigured trusts
- C.role based associations
- D.proprietary transport protocols

Correct: C

16.What is a provisioning method available in HP Storage Essentials v5.x?

- A.single-action, single-element - occurs in real time and cannot be scheduled
- B.SAN based - shows which hosts have allocated storage in a SAN and can be scheduled
- C.multi-action, host based - shows all current pools allocated by hosts and cannot be scheduled
- D.storage based - shows how many hosts have allocated capacity on a storage system and can be scheduled

Correct: A

17.Which Storage Essentials plug-in can be used to monitor a supported backup solution?

- A.dbAdmin utility
- B.Backup Manager
- C.RMAN backup manager
- D.Storage Essentials backup utility

Correct: B

18.Which service must be stopped to allow the Database Admin utility to work?

- A.CIMService
- B.OraService
- C.CIMManager
- D.AppStorManager

Correct: D

19.Which services can be used by managed devices to send alerts to the management server?

(Select three.)

- A.Ping
- B.FTP
- C.SMI-S
- D.SMTP
- E.SNMP
- F.WBEM/DMI

Correct: C E F

20. Where will you find the HBA Test Utility?

- A. distributed with CIM extensions CD
- B. as an HP Storage Essentials CLI command
- C. in the Tools menus of HP Storage Essentials
- D. in the tools menu of HP Systems Insight Manager

Correct: A
