B. charge higher prices for hardware
C. empower customers to easily determine which solutions best meet their needs
D. Keep security issues quiet so customers do not get upset

Answer: C

QUESTION NO: 10

Why imaging and printing security is often not included in internal security standards?

A. There is a lack of awareness about imaging and printing security.
B. It is not a risk.
C. It is expensive to secure.
D. It is difficult to find information on hacking these devices.

Answer: A

QUESTION NO: 11

Which organization provides a more credible means to determine the overall level of security provided by an imaging and printing device?

A. Common Criteria Certification
B. National Institute of Standards and Technologies (NIST)
C. EEEp2600
D. Access Control List (ACL)

Answer: B

QUESTION NO: 12

Which regulation forces companies to publish a Security Target document about their products?

A. Common Criteria Certification process

www.Pass4itSure.com

B. National Institute of Standards and Technologies (NIST)
C. Sarbanes Oxley legislation
D. Health Insurance Portability Protection Act

Answer: A

QUESTION NO: 13

Which statement is true about the security checklist for HP MFPs on the National Institute of Standards and Technologies (NIST) website?

A. It lists the security features customers are asking for in future products.
B. It is the first available hardcopy product checklist from any printer manufacturer.
C. It contains competitor's device security features for easy comparison.
D. It shows all encryption methods currently being used by HP.

Answer: B

QUESTION NO: 14

You ask your customer "Do you currently manage your imaging and printing devices?"

What is the reason you asked this question?

A. to determine if the customer understands the importance of printer fleet management
B. to help you determine if the customer is using HP Web Jetadmin or a competitive tool
C. to identify potential opportunities for user and/or device authentication
D. to help you better understand the customer's current state with regard to imaging and printing security

Answer: D

QUESTION NO: 15

Why should companies be concerned with imaging and printing security? (Select two.)

www.Pass4itSure.com

A. HP Printers and HP MFPs are intelligent devices, unlike the competitor's products.
B. Like servers and desktops, printers and MFPs are vulnerable to attack if steps are not taken to secure their environment.
C. Critical business workflows are dependent on printers and MFPs; if printers and MFPs are hacked, revenue is lost.
D. Like servers and desktops, printers can be easily removed from a company if not secured to the floor or wall.

Answer: B,C

QUESTION NO: 16

Why be concerned about imaging and printing security?

A. Government regulations force security policies on most businesses.
B. Resellers can make a large volume of device sales by selling security solutions.
C. Many dollars are spent on undetected imaging and printing abuse.
D. IT managers know the importance of securing their network printing devices.

Answer: D

QUESTION NO: 17

Why partner with HP for securing your imaging and printing environment? (Select three.)

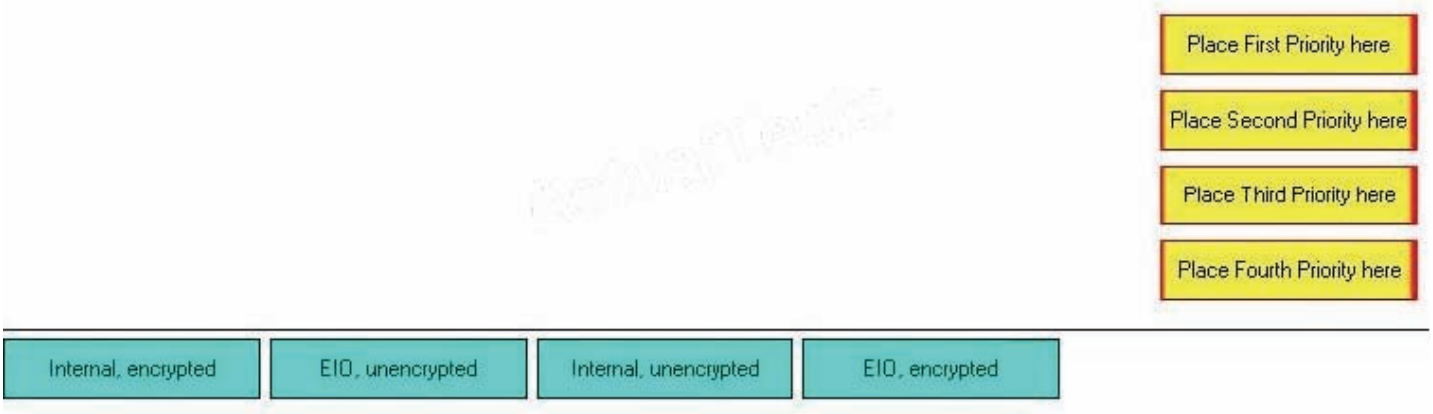
A. HP has a proven framework for meeting imaging and printing security needs.
B. HP has the only IEEEp2600 security certification in the industry.
C. HP has a worldwide reputation as a technology expert.
D. HP has built in AES and DES encryption on every product.
E. HP offers the most imaging and printing devices having earned a Common Criteria Certification.
F. HP offers a coordinated range of capabilities.

Answer: A,C,E

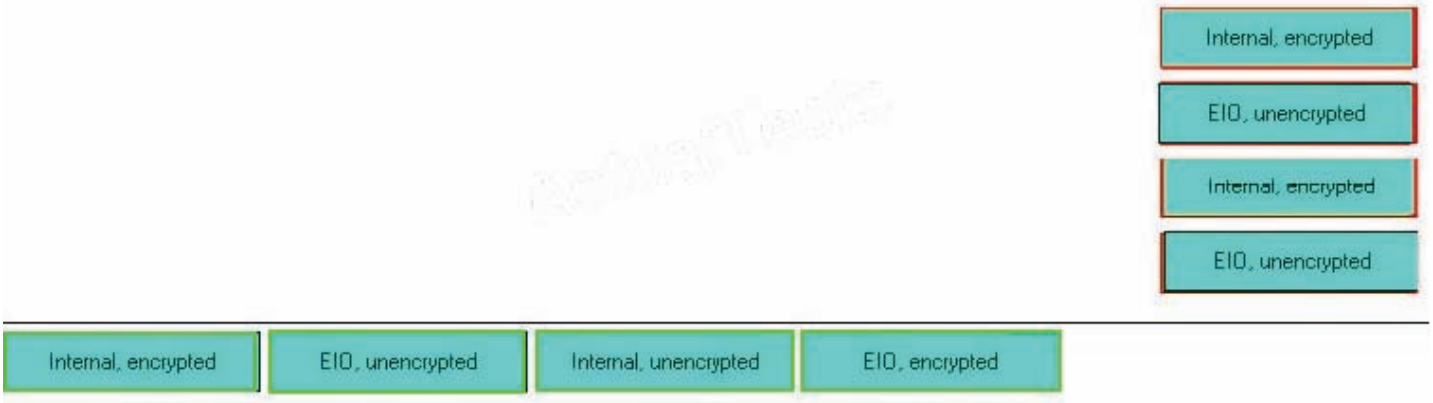
QUESTION NO: 18 DRAG DROP

www.Pass4itSure.com

What is the access priority when multiple hard disks are installed in an HP imaging and printing device?



Answer:



www.Pass4itSure.com

QUESTION NO: 19

HP MFPs are factory pre-configured with which settings?

A. All printing protocols, management features and control panel options are enabled
B. Printing protocols are enabled, but all management features are disabled.
C. Control panel lock is enabled, but all printing protocols are disabled.
D. All printing protocols and management features are disabled.

Answer: A

QUESTION NO: 20

Which statement is true about the act of reducing network risk by closing down device security holes?

A. It is a value-added selling point when discussing security with your customers.
B. It is a concern when implementing imaging and printing security for customers.
C. It requires the customer to invest in additional IT staff to manage.
D. It is a benefit of implementing imaging and printing security for customers.

Answer: D

QUESTION NO: 21

Which HP Imaging and Printing device security feature meets Department of Defense standard DOD 5220-2.M?

A. HP IPSec/Firewall
B. Control Panel Access lock
C. HP Access Control
D. Secure Sanitize Disk Erase

Answer: D

QUESTION NO: 22
