-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

**QUESTION 1**

What is the maximum number of chassis supported in an SRX Series chassis cluster?

- A. ten
- B. twenty
- C. four
- D. two

Correct Answer: D

---

**QUESTION 2**

Which two metrics are important for determining the size and scope of a new network design? (Choose two.)

- A. implementation time frame
- B. number of users
- C. location of users
- D. training requirements

Correct Answer: BC

---

**QUESTION 3**

You are working on a campus design for a customer who has acquired a building across the street from the main facility. The recently acquired building was built in 1979 and has not been updated to support the demands of current network technologies. The building must support high-speed network connections for all users working at the location.

Which two elements would you consider when analyzing connectivity and throughput requirements for this new location? (Choose two.)

- A. the hierarchical modules used within each group at the new location
- B. the data received from a traffic analysis
- C. the condition of the physical media at the new location
- D. the type of business the customer is in

Correct Answer: BC

---

**QUESTION 4**

What information is included in an RFP issuance?

- A. design requirements
- B. product features
- C. product positioning
- D. COGS pricing

Correct Answer: A

---

#### QUESTION 5

Which two groups within the IT organization will likely need training if a new type of network equipment is deployed throughout the enterprise? (Choose two.)

- A. application development
- B. systems administrators
- C. network engineering
- D. network operations

Correct Answer: CD

---

#### QUESTION 6

You are designing network connectivity into a mission critical site.

What are three design elements required to complete this design? (Choose three.)

- A. diverse entrance facilities
- B. firewall cluster
- C. 802.11 wireless point-to-point
- D. DSL/cable modem service
- E. redundant Internet border routers

Correct Answer: ABE

---

#### QUESTION 7

What are three use cases for Data Center Interconnect? (Choose three.)

- A. security

- B. Layer 2 extension
- C. disaster recovery
- D. geocustering
- E. ease of management

Correct Answer: BCE

---

#### QUESTION 8

You have an access switch that must connect to an aggregation switch. The two switches are 2,600 feet (800 meters) apart.

Which type of media would be used to connect the Layer 2 switches?

- A. multimode fiber
- B. single-mode fiber
- C. cat5 cable
- D. cat6E cable

Correct Answer: B

---

#### QUESTION 9

You are consulting in a network architect role for a multinational corporation. As part of your contract, you have been asked to propose an update to the company's network design. You have completed the initial design draft.

Which statement describes what you should do next in your project?

- A. Begin to plan for a proof-of-concept demonstration to show why your design is superior to the current network.
- B. Schedule a time with the board of directors to present the proposed solution.
- C. Schedule the first phase of implementation.
- D. Share the design with the other network administrators and solicit feedback.

Correct Answer: D

---

#### QUESTION 10

What is a defining characteristic of a Layer 3 network?

- A. A Layer 3 network segments broadcast traffic.
- B. A Layer 3 network forwards all traffic to a default gateway.

C. A Layer 3 network forwards only multicast traffic.

D. A Layer 3 network segments traffic at the presentation layer.

Correct Answer: A

---

#### QUESTION 11

What are two phases in Juniper's lifecycle approach when designing a network? (Choose two.)

A. plan

B. build

C. buy

D. oversee

Correct Answer: AB

---

#### QUESTION 12

What are two tiers used in a traditional data center design? (Choose two.)

A. core

B. aggregation

C. compute

D. user

Correct Answer: AB
