QUESTION 1

HOTSPOT

You have a Microsoft Exchange Server 2019 organization that contains a shared mailbox named Inquiries.

You need to configure Inquiries to meet the following requirements:

A user named User1 must have full access to the mailbox without having permissions to send email messages.

A user named User2 must be able to send email messages that appear to come from the mailbox.

How should you complete the PowerShell script? To answer, select the appropriate options in the answer area;

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

	<code>-Id Inquiries -User User1 -AccessRights</code>													
<table border="1"> <tr><td>▼</td></tr> <tr><td>Add-AdPermission</td></tr> <tr><td>Add-MailboxPermission</td></tr> <tr><td>Add-RecipientPermission</td></tr> <tr><td>Set-Mailbox</td></tr> </table>	▼	Add-AdPermission	Add-MailboxPermission	Add-RecipientPermission	Set-Mailbox		<table border="1"> <tr><td>▼</td></tr> <tr><td>ChangeOwner</td></tr> <tr><td>ChangePermission</td></tr> <tr><td>Deleteltem</td></tr> <tr><td>ExternalAccount</td></tr> <tr><td>FullAccess</td></tr> <tr><td>ReadOnly</td></tr> </table>	▼	ChangeOwner	ChangePermission	Deleteltem	ExternalAccount	FullAccess	ReadOnly

QUESTION 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this scenario, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft Exchange Server 2019 hybrid deployment that contains two Mailbox servers named MBX1 and MBX2.

The company has the departments shown in the following table.

Name	Mailbox location	Number of recipients
Sales	MBX1	300
Production	MBX2	500
Administration	MBX1	200
IT	Exchange Online	50
Managers	Exchange Online	100
Marketing	Exchange Online	350

From the on-premises organization, outbound email is sent directly to the internet by using DNS lookups.

You are informed that some sales department users send email messages that are identified as spam.

You need to automatically block the sales department users from repeatedly sending spam.

Solution: You modify the Send connector to use Exchange Online as a smart host.

Does this meet the goal?

A. Yes

B. No

Correct Answer: A

References: <https://docs.microsoft.com/en-us/exchange/mail-flow-best-practices/use-connectors-to-configure-mail-flow/setup-connectors-to-route-mail>

QUESTION 3

You have a Microsoft Exchange Server 2019 organization.

You deploy a new mailbox server named EX01.

You need to ensure that EX01 can perform content filtering and sender filtering.

What should you run first?

- A. Install-UnifiedCompliancePrerequisite
- B. Set-transportAgent
- C. Install-AntiSpamAgents.ps1
- D. Set-MailboxJunkEmailConfiguration

Correct Answer: C

References: <https://docs.microsoft.com/en-us/exchange/antispam-and-antimalware/antispam-protection/antispam-onmailbox-servers?view=exchserver-2019>

QUESTION 4

You have a Microsoft Exchange Server 2019 organization.

You need to ensure that all email is retained for one year, and then moved to an archive mailbox.

What should you use?

- A. a default policy tag
- B. a data loss prevention (DLP) policy
- C. a personal tag
- D. a retention policy tag

Correct Answer: D

References: <https://docs.microsoft.com/en-us/exchange/policy-and-compliance/mrm/retention-tags-and-retention-policies?view=exchserver-2019>

QUESTION 5

You have a Microsoft Exchange Server 2019 organization that has a database availability group (DAG).

The DAG contains the servers shown in the following table.

You install a new server named File02 that runs Windows Server 2019.

You attempt to add File02 as an alternate witness server, and you receive the following error messages:

You need to ensure that you can configure File02 successfully as the alternate witness server.

What should you do on File02?

- A. Create an inbound firewall rule

- B. Add a member to the Administrators group.
- C. Enable PowerShell remoting.
- D. Create a shared folder.

Correct Answer: B

QUESTION 6

DRAG DROP

Your company named Contoso, Ltd. has a Microsoft Exchange Server 2019 hybrid deployment.

A partner company named Fabrikam, Inc. uses an Exchange Online subscription for email.

You need to ensure that all the users at Fabrikam can view the free/busy information of the users at Contoso.

What should you configure? To answer, drag the appropriate components to the correct companies.

Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Components	Answer Area
<div style="border: 1px solid black; padding: 2px;">A connector</div>	For Fabrikam:
<div style="border: 1px solid black; padding: 2px;">A sharing policy</div>	For Contoso:
<div style="border: 1px solid black; padding: 2px;">A remote domain</div>	<div style="border: 1px dashed black; padding: 2px;">Component</div>
<div style="border: 1px solid black; padding: 2px;">A federation trust</div>	<div style="border: 1px dashed black; padding: 2px;">Component</div>
<div style="border: 1px solid black; padding: 2px;">An organization relationship</div>	

Correct Answer:

Components	Answer Area
<div style="border: 1px solid black; padding: 2px;">A connector</div>	For Fabrikam:
<div style="border: 1px solid black; padding: 2px;">A remote domain</div>	For Contoso:
<div style="border: 1px solid black; padding: 2px;">A federation trust</div>	<div style="border: 1px solid black; padding: 2px;">An organization relationship</div>
<div style="border: 1px solid black; padding: 2px;"> </div>	<div style="border: 1px dashed black; padding: 2px;">A sharing policy</div>

<https://docs.microsoft.com/en-us/exchange/sharing/sharing-policies/sharing-policies>

QUESTION 7

HOTSPOT

A user named User1 left the organization 10 days ago.

You need to purge all the email data of User1.

How should you complete the command? To answer, select the appropriate options in the answer area;

NOTE: Each correct selection is worth one point.

Hot Area:

`-Database MBD01 -Identity User1`

Remove-StoreMailbox
Remove-Mailbox
Remove-MailUser
Disable-MailboxQuarantine

-MailboxState
-RemoveFromRecycleBin
-SoftDeletedMailUser
-PermanentlyDelete

SoftDeleted
\$true
Disabled

www.Pass4itsure.com

Correct Answer:

`-Database MBD01 -Identity User1`

- Remove-StoreMailbox
- Remove-Mailbox
- Remove-MailUser
- Disable-MailboxQuarantine

`-MailboxState`

- SoftDeleted
- \$true
- Disabled

`-RemoveFromRecycleBin`

- SoftDeletedMailUser
- PermanentlyDelete

<https://docs.microsoft.com/en-us/exchange/recipients/disconnected-mailboxes/permanently-delete-mailboxes?view=exchserver-2019>

QUESTION 8

You have a Microsoft Exchange Server 2019 organization that contains a Mailbox server named EX01. EX01 contains a mailbox database named MailDB1.

You attach a new hard drive named F to EX01. On drive F, you create a folder named Databases. You plan to run the following command on EX01.

`Move-DatabasePath`

Correct Answer:

Answer Area

The command will:

- complete successfully but disconnect users
- complete without disconnecting any users
- only run during a maintenance schedule

If MailDB1 was mounted before running the command, the database:

- will mount automatically
- must be mounted manually
- must be repaired before the database can be mounted

<https://docs.microsoft.com/en-us/powershell/module/exchange/mailbox-databases-and-servers/move-databasepath?view=exchange-ps>

**QUESTION 9**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft Exchange server 2019 organization.

You discover that users rarely delete items from their Sent Items folder and their Deleted Items folder.

You need to recommend a solution to automatically reduce the size of the primary mailbox of each user.

Solution: You recommend configuring a retention policy that contains two personal tags.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

This could work but the personal tags would need to use the 'Permanently Delete' option and the users would have to assign the tags to their Sent Items folder and their Deleted Items folders.

QUESTION 10

Your network contains an Active Directory domain named contoso.com.

You have a Microsoft Exchange Server 2019 organization for contoso.com that has two Internet-facing servers named EX01 and EX02.

In the public DNS zone, you have two MX records for contoso.com.

You discover that all email sent to the organization is delivered to EX01. However, when EX01 is down for maintenance, email messages are delivered successfully to EX02.

You need to ensure that email is delivered to both EX01 and EX02 during normal operations.

What should you modify?

- A. the priority of the MX records
- B. the properties of the Receive connector on EX01
- C. the properties of the Receive connector on EX02
- D. the weight of the MX records

Correct Answer: A

**QUESTION 11**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft Exchange Server 2019 server named EX01. EX01 has the default Receive connectors. EX01 receives Internet email on port 25 from an appliance in the company's perimeter network. The company has an

application named App1 that can only send email on port 25. The application administrator requests that you enable App1 to route email through EX01 for delivery.

You need to ensure that EX01 only accepts email from the appliance and App1.

Solution: You modify the remote IP address ranges of the default frontend Receive connector.

Does this meet the goal?

A. Yes

B. No

Correct Answer: A

References: <https://docs.microsoft.com/en-us/exchange/mail-flow/connectors/receive-connectors?view=exchserver-2019>

QUESTION 12

You have a Microsoft 365 subscription.

You need to modify the anti-spam settings to meet the following requirements.

Quarantine spam for 30 days

Notify administrators if users are blocked for sending spam.

Every three days, provide users with a report that details which email messages were identified as spam.

Which spam filter policy should you modify to meet each requirement? To answer, drag the appropriate policies to the correct requirements. Each policy may be used once, more than once, or not at all. You may need to drag the split bar

between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Policies

- The connection filter policy
- The default spam filter policy
- The outbound spam filter policy
- The spoof intelligence policy

Answer Area

- Quarantine spam for 30 days: Policy
- Notify administrators if users are blocked for sending spam: Policy
- Every three days, provide users with a report that details which messages were indentified as spam: Policy

Correct Answer:

Policies

- The connection filter policy
- The default spam filter policy
- The outbound spam filter policy
- The spoof intelligence policy

Answer Area

- Quarantine spam for 30 days: The default spam filter policy
- Notify administrators if users are blocked for sending spam: The outbound spam filter policy
- Every three days, provide users with a report that details which messages were indentified as spam: The default spam filter policy
