**QUESTION 1**

In what order do you follow these steps according to Best Practices?

1.

 Crawl, parse and index, and inspect the content using the Text Miner application.

2.

 Integrate ICM and/or develop a custom annotator, and inspect the content using the Text Miner application.

3.

 Create a small, representative collection of documents.

4.

 Define new dictionaries, and inspect the content using the Text Miner application.

A. 1/2/3/4

B. 3/1/4/2

C. 3/4/2/1

D. 2/4/3/1

Correct Answer: B

**QUESTION 2**

Users are being discouraged from using _____ because they may not be supported in future releases.

A. Real-time NLP API.

B. SIAPI Administration APIs.

C. Crawler Plug-in APIs.

D. Identity management component APIs.

Correct Answer: B

**QUESTION 3**

ICA provides a software component that enables users to search multiple repositories with a single query and view only the documents that they are allowed to see without requiring a Single Sign-ON (SSO) policy. What is this component called?

A. Real time natural language processing API.

B. REST APIs.

C. Identity management API.

D. Plug-in APIs.

Correct Answer: C

**QUESTION 4**

All of the following statements about annotators are true, EXCEPT for:

A. A software component that performs specific linguistic analysis tasks and produces and records annotations.

B. Are always independent of (i.e., do not rely on) other annotators in the document processing pipeline.

C. Do the real work of extracting structured information from unstructured data.

D. Annotators typically read from and write to the common analysis structure.

E. May be collection specific, and are administered via the Configure document processing pipeline link on the Parse and Index tab.

Correct Answer: B

**QUESTION 5**

When you configure a collection, you can enable the system to automatically detect Terms of interest. Of the following statements, which one is INCORRECT?

A. Terms of interest are only valid for text analytics collections.

B. Similar to the Named Entity Recognition annotator, Terms of interest is only supported by a subset (EN, ES, DE, FR, JA) of the languages supported in ICA.

C. Terms of interest are the relationships between nouns and nearby verbs and adverbs in the text.

D. You can enhance the content analytics by including nouns identified in the terms of interest in a custom user dictionary.

Correct Answer: B

**QUESTION 6**

Flexible node assignment allows you to create an additional server that will perform which two functions?

A. Crawler and document processing.

B. Crawler and parser/indexer.

C. Crawler and search.

D. Document processing and search.

Correct Answer: D

**QUESTION 7**

When using the text miner application to analyze content, you use the _____ to identify the relationship of keywords or subfacets that belong to different facets.

A. Facets view.

B. Time Series view.

C. Connections view.

D. Deviations view.

Correct Answer: C

**QUESTION 8**

What do Export plug-ins allow you to do?

A. Implement custom logic when exporting crawled, analyzed or searched documents.

B. Change indexed content when exporting analyzed documents.

C. Use the real-time NLP API to perform ad-hoc text analytics on a document.

D. Export collection configuration information.

Correct Answer: A

**QUESTION 9**

What is the simple mechanical process of breaking up white space delimited text into words called?

A. Tokenization.

B. Segmentation.

C. Shallow parsing.

D. Regular expressions.

Correct Answer: A

**QUESTION 10**

With regard to custom lexical dictionaries, all of the following are true statements EXCEPT:

A. Custom lexical dictionaries are only used by search collections.

B. Use the eslexicalbuilder tool to create a custom lexical dictionary .dic file.

C. Use the administration console to modify a custom lexical dictionary once it has been added to the system.

D. Custom lexical dictionaries must be assigned to one or more collection(s) in order to improve the quality and precision of search results.

Correct Answer: C
