**QUESTION 1**

Which command is used to view the manual pages?

- A. help -man
- B. doc -man
- C. man
- D. show
- E. info

Correct Answer: C

Explanation: You can view manual pages by running the man command followed by a specific command name. If the man command is not installed on your system, install it by running zypper install man.

QUESTION 2

Which process ID is assigned to systemd?

- A. it is the only process with no system ID.
- B. 1
- C. 1001
- D. 0

Correct Answer: B

Explanation: The program systemd is the process with process ID 1. It is responsible for initializing the system in the required way. systemd is started directly by the kernel and resists signal 9, which normally terminates processes. All other programs are either started directly by systemd or by one of its child processes.
